

Moritz

Above: Natural shell over custom color base.
Natural insert.

Moritz's audible **click to open, click to close** twist-lock feature is a consumer favorite!

This low-profile, **hoodless** locking actuator is great for travel. No more lost or cracked overcaps - no spills or stains. Orifice is completely hidden in locked position -- just throw it in and go!

Two-piece design, base and shroud, encourages custom two-color combos. Base covers 1" mounting cup for a pulled-together finish.

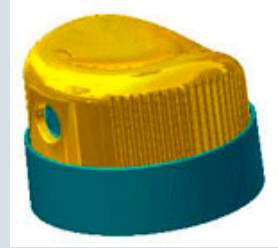

Paired with our **VX** vertical valve, the generous finger pad makes actuation super-easy. Perfect for hairspray, suncare, insecticide, body spray, butter spray... you name it, Moritz™ can spray it!

Separate base and shell offer a wealth of color possibilities!

SPECIFICATIONS:

2-Piece MBU	Yes
Non-MBU	No
Fan Spray	No
Extension Tube	No
Compatible Valve	VX
